PROJECT SCHOOL DOT NET

The growing and ever increasing population in the country has been of great concern and this has necessitated a continuous provision of educational centres and facilities in order to cater for the ceaseless demand for Child education. In lieu of this and in the world over, learning has been greatly enhanced with Information Technology at all level which enables constant cement and connected research among professionals and learners. The rapid development of Information technology has leap frog great nations into accelerated development.

As a result of this, it is important for us embrace Information Technology as a part of our lives and tap into its enormous benefits, in a few years from now the world will be driven on e-commerce, e-governance etc totally which can force a novice out of development. However, considering the fact that the cost of providing IT facilities in schools could be very expensive, thus, this led us into researches to develop Project School Dot Net (PSDN).

What is PSDN? :

It is an all in one IT solution package for grassroots' schools powered by Open source technologies .This product which includes school management system software, school website, network and internet connectivity and training is specifically designed and tailored to meet today's grassroots' schools *BASIC* /IT demands, putting into consideration "Affordability" and "Flexibility".

WHY PAY FOR JUST ONE SOLUTION WHEN THE PRICE OF ONE CAN PAY FOR ALL ...
that's **PSDN!!!**

Solutions

● TRAINING

- intensive users training
 - i. network administrator
 - ii. SMS (school management system) administrator
 - iii. teachers and pupils

Benefits

Generally, the benefit of Information Technology especially in academics cannot be over – emphasized as it is visible in all aspects of human life on a daily basis. However, the PS.Net will be beneficial to your institution or school in a variety of ways which includes the following:

- 1) It will expose your pupil/student to the world of info-tech and give them a broader understanding of its benefits to their development
- 2) It will bring about efficiency and effectiveness in your day to day activities or daily routine.
- 3) The website will showcase your school and your activities to the outside world (Nigeria and Overseas), which will in turn woo prospective pupils (students) to make your school their undisputed choice.
- 4) It will expose your pupil to the benefits of the information age and give your students the confidence to stand side by side with other students irrespective of their status.
- 5) It will make information dissemination between your school and the Parent/Guardian of your pupil more easily and also increase public relations.
- 6) It makes you referent and brings triple returns on investment
- 7) Information and research materials can be easily gotten at the snap of a finger or at the speed of light.

PROJECT SCHOOL DOT NET CLIENT'S FORM

Note: Please give correct information

Name of school:

Address of school:

Category of school:

(a) Nursery/primary school (b) Secondary School (c) Nursery/Primary & Secondary

Name of proprietor or proprietress:

Total No of Pupil:

Total No of Teachers:

Size of School:

Do you have computers (a) yes (b) No

If yes , how many ? (a) 1 (b) 2 (c) 3 (d) 4 (e) 5 or more

Do you have internet facilities (a) Yes (b) No

What do feel about Project School Dot Net?

.....
.....
.....
.....
.....
.....

- Would you like to enter a Partnership with PSDN or by setting up the project?

- What other information do you desire that is not contained in the proposal

.....

- If you have a computer, do you have a computer Tutor? (a) Yes (b) No

- If yes, how many
